

# Waste Bin Collection

Made in Germany

**Pull-out technology with  
GRASS – Nova Pro full drawer**

**MT<sup>®</sup>base** is the sophisticated built-in waste collector solution, convincing due to high quality, convenient handling and perfect pull-out technology. GRASS self-retractable full drawer technology with Airmatic soft-impact proven in long-term tests smooth operation and lateral stability even under full load (load bearing capacity 40 kg)

- reinforced metal housing frame for container holder, powder-coated
- extractable metal lid with grip clip, may be used as an additional deposit, powder-coated
- available for quadruple cupboard width as well as including standard and XXL containers, installation depth of only 40 cm
- optional 10 l container with bio-lid and activated charcoal filter
- exactly fitting assembly using the "quick & easy" quick assembly frame

**MT<sup>®</sup>base – competitive edge  
due to perfectly attenuated  
pullout technology**

**The MT<sup>®</sup>base convinces due to easy assembly:**

1. Insert GRASS-guide 450 mm into the side part and assemble flush with the body (quick & easy).

2. Slide depositing lid into the plastic sliding bearing.

3. Insert pull-out frame into the pull-out rails.

4. Install frontal attachment using the template.

5. Insert frontal plate into the pull-out frame and fasten it.

6. Insert container. Finished!

# MT<sup>®</sup>base-1

**Quick  
&  
Easy**

Frontal pull-out waste collector in standard format S with impact attenuation.

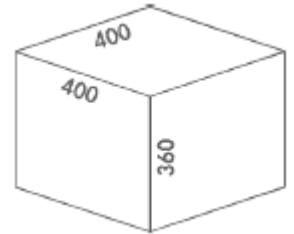

- Installation height 36 cm
- Installation depth 42 cm
- "quick&easy" installation frame for different body thicknesses (16/19)
- "nova Pro" guide rail
- Functional design

# Swivel technology

Made in Germany

**MT<sup>®</sup>cabbi**  
*These champions have advantages*

reddot design award

**MT<sup>®</sup>cabbi** range was supplemented by another innovative product. An intelligent solution with easy handling for collecting organic waste without bothersome odours. A tightly fitting bio-lid with detachable perforated cartridge, which is fitted with an activated charcoal polyester fleece as odour filter. Overall, the CABBI concept is convincing due to its extraordinary quality and a large variety of performance characteristics:

- very sturdy carrying axle construction
- may be easily installed
- optimum use of space
- easy-action cam
- lid using soft raising/lowering technology
- easy access to the floor cupboard
- clamping strips ensure fixed position
- coloured clamps as fraction identification
- environmentally compatible basic materials
- convenient wire basket as accessory
- tightly fitting bio-lid

**The MT<sup>®</sup>cabbi junior are easily installed:**

1. Assemble rotating support and pipe support bracket.

2. Complete and insert rotating rods.

3. Install cam..

4. Install basket in rotating bar.

5. Clip lid on.

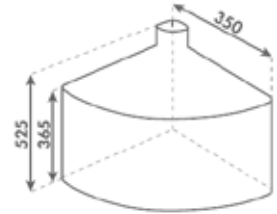

6. Insert containers.
